SCE GASKETS BECOMES NHRA CONTINGENCY AWARDS SPONSOR

SCE Gaskets, LLC, a 20-plus year manufacturer of high performance gaskets, has become an official NHRA Contingency Awards Sponsor for 2013, and is posting for use of its Pro Copper, Titan and patented ICS Titan head gaskets at all Regional and Divisional events in the Lucas Oil Drag Racing Series. SCE is the only gasket manufacturer posting for the 44-event series.

According to SCE president Ryan Hunter, who is also known in the industry as “The Gasket Professor,” the implementation of a sponsorship program was a logical step in the company’s growth. Hunter said, “We have worked closely with many top engine builders and crew chiefs over the years, and now with the recent expansion of our manufacturing capabilities we are in a position to accommodate a greater volume. We’re ready to ‘step out of the shadows’ and go mainstream.”

SCE is posting for those classes that typically employ copper head gaskets; Top Alcohol Dragster, Top Alcohol Funny Car, Competition Eliminator, Top Dragster and Top Sportsman. To qualify for SCE’s winner or runner-up contingency cash the racer must use the product, have proof of purchase for said product within one year of the claim date, and have SCE’s new contingency stickers visible on both sides of the car.

For additional information call 800-427-5380 or visit www.SCEgaskets.com. SCE gaskets are available at leading performance retailers.
