Pairings and Lane Assignments

- Potential bye runs in eliminations will be done by random card draw during the first round. During later rounds, the best winning reaction time from the previous round will have earned the potential bye for the following round. Competitors may only receive one bye run during eliminations until such time as all remaining competitors have had a bye.
- Lane choice will be done via coin toss at the head of the lanes (by staging personnel). Be prepared to tell staging personnel which lane you prefer, and to call the coin toss (point up for heads, down for tails). Any racer pulled for a potential bye will have lane choice if paired at end of class.

Team Structure

- Each participating track is allowed a team of up to 40 entries, regardless of class that will earn team points. Additionally, each track may bring an unlimited number of additional racers to be place on Team 2, which will NOT earn team points (blockers).
